

# craft stamps online

The UK's largest craft stamp collection

## How to prepare your design before sending it to us

To begin with you must have a graphic file of your design. Acceptable file formats are listed to the right:

Try to ensure that your graphic file has a resolution of at least 300 dpi. If your file is of a lower resolution it will produce a lower quality stamp.

Click on "Design Your Own Stamp" on the Craft Stamps Online homepage to open the stamp designer. You will see a dialogue box like this:

1. Choose your file

To upload your file click on "browse" and use the explorer window to locate your file. When you are sure that you have selected the correct file for your design, click on "open" followed by "next".

You will then be presented with a box like this:

Uploaded image: **crafttest.gif**

1. What is the width in millimetres of the printed image that you would like your stamp to make?  mm

2. What is the height in millimetres of the printed image that you would like your stamp to make?  mm

Enter the dimensions to which you require the stamp to be produced in the relevant boxes and click on "next". Please note: you may be prompted to provide different dimensions if they are outside the boundaries of our stamp blocks (see box on right for guide).

If you have uploaded a jpeg, gif or png type file you will see a small preview of your design as shown on the right. If you have uploaded a different file type you will be notified that the file has been successfully uploaded.

Thank you for uploading your design.

You have specified that the printed image size for this stamp will fit inside area of **50mm wide by 20mm high.**

At this size:	Qty
Just the stamp is £15.99	<input type="text"/>
Stamp and acrylic block is £20.48	<input type="text"/>

Use the "Qty" boxes to select the number of stamps you wish to have produced from your custom design, and also decide whether you wish to order an acrylic block along with your stamp. By clicking "Add to basket" you will be taken to the checkout where you can complete the order of your custom stamp!

.jpg	✓	.tif	✓
